[income-allocations] **NET INCOME (LOSS)**
(net income should go to corporation's reserves) \$ _____

* These items are normally the corporation's responsibility and can be totalled to help determine the minimum rental rate to charge the chapter. Ideally, the chapter would experience a financial benefit for filling the house and collecting rent efficiently.

Annually, the chapter is billed by the Fraternity's Self-Retention Fund for comprehensive liability insurance. This also covers the house corporation. Some corporations pay for a portion of this coverage.

** See the Payroll Expense Worksheet to help calculate employee-related expenses.
